#### Sub-header

# Another, smaller, sub header

This is a block quote

- 1. Step1
- 2. Step2
- 3. Step3
- First Bullet
- Second Bullet

# ## [1] 14

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

When you click the  $\mathbf{Knit}$  button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

### summary(cars)

```
##
        speed
                        dist
           : 4.0
                   Min.
                           : 2.00
    1st Qu.:12.0
                   1st Qu.: 26.00
##
##
    Median:15.0
                   Median : 36.00
           :15.4
                           : 42.98
##
   Mean
                   Mean
    3rd Qu.:19.0
                   3rd Qu.: 56.00
   Max.
           :25.0
                   Max.
                           :120.00
```

# **Including Plots**

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.
